DETAILED ACTION

1. This application has been examined.
2. The amendment filed 6/25/07 has been entered.
3. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.
4. Claims 15-16, 18-20 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. These claims are directed to a computer program product, comprising a medium, which per the specification may be just signals. Such a medium is not statutory subject matter.
5. Claims 1, 2, 5-10, 12-14, 21-22 are allowable over the prior art of record. These claims bring out the two different icons within the different objects of different sets, and the recognizable persistence, and the features combined are not set forth in the prior art of record.
6. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection. Examiner has attempted to contact

applicant's representative to expedite remedy for this rejection. Applicant's representative is invited to contact Examiner at earliest convenience.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Steven P. Sax whose telephone number is (571) 272-4072. The examiner can normally be reached on Monday thru Friday, 8:30 AM - 5:00 PM.
